

We are writing to oppose the move to replace the K-LOVE signal with an LPFM signal. As a family, we are against replacing K-LOVE with another programming service. Many of my friends and neighbors are positively affected by the broad-based family-friendly type of programming that K-LOVE offers and want to continue to be able to listen to it in our cars and homes. Very few public radio stations are "G" rated enough for the entire family to listen to and it would be a tremendous loss to lose K-LOVE. Thank you.
